Experience

RESEARCH AND DEVELOPMENT ENGINEER   2023-PRESENT

assist in designing, coding, and testing software applications, contributing to various phases of the software development lifecycle.

OSP ENGINEER   2020-2022

I conduct surveys and technical design reviews, supervise contracted employees, manage client relationships, achieve service targets, handle complaints, and troubleshoot system faults.

PRODUCT SUPPORT ENGINEER   2019-2020

I created schematic diagrams and layouts, upgraded hardware, programmed PLCs, compiled project documentation, addressed technical queries, conducted product testing, and coordinated with foreign suppliers on-site.
